

The Darwent range of weapon storage units is precision-engineered to provide secure and user-friendly firearm storage. Featuring horizontal racks, the Darwent enables seamless storage without removing sighting systems and other ancillaries. This innovative design allows quick access and straightforward barcode checking of firearms in situ. Combining robust construction with functionality, the Darwent range is ideal for environments requiring secure and efficient weapon management.

FEATURES:

- Horizontal sliding racks
- Robust and durable to cope with heavy continued use
- Modular design to allow easy upgrades
- Configured to accommodate variable barrel length
