

+44 (0)1299 251750 - sales@benweld.co.uk

The Worcestershire doorset is an outward-opening, plain-leaved steel doorset with multi-layer composite construction. Developed to resist experienced attempts at forced entry into government or commercial premises with no regard to noise. The Worcestershire features a multi-point locking system tailored to safeguard high-value assets, enhancing the security of armouries and magazines.

FEATURES:

- Tested and certified to NPSA standards for UK Government use*
- Easy to install
- Multi-point locking for enhanced security
- Adaptable location – can be used on exterior or interior projects
- Customisable design with full installation service
