

For the secure working environment and storage of high-value and sensitive assets, we offer custom fit-out enclosures that meet rigorous LPS 1175: Issue 8 testing. The ISO-Secure container can be fully furnished with secure racking for weapons, tactical equipment, or other assets that require a more bespoke solution. The container is enhanced using composite panels on the walls, ceiling, and floor for resistance against forced entry attempts. Select one of our lined LPS 1175 options paired with a high-performance locking system and accessories for 360° protection of your assets.

FEATURES:

- Tested and certified to LPS 1175: Issue 8 Security Ratings A1 (SR1), B3 (SR2), B20, C3, C5 (SR3), D10 (SR4), E10 (SR5) & G5*
- Composite lining on the walls, ceilings, and optionally the floor to maximise internal space
- Insulated lining providing tested acoustic & thermal resistance and fire rated environments
- Optional humidity and temperature control, ideal for medical and research facilities
- High-performance locking systems, ranging from the single key operated Navis-Shield to high-level multi-point access control systems, to suit both lock-and-leave and controlled secure environments
- Optional stainless steel composite linings for corrosion resistance in the harshest environments
