

Our ISO-Secure containers are well-suited for rapid redeployment 'lock-and-leave' storage applications, where the quick and safe storage of assets and equipment is crucial. With an LPS 1175-approved construction, a non-obtrusive finish, and an easily configurable locking system, the ISO-Secure range keeps supplies protected against forced entry attempts during transit, in military zones, and at high-security storage facilities.

FEATURES:

- Tested and certified to LPS 1175 Issue 8: Security Rating A1 (SR1), B3 (SR2), C5 (SR3), D10 (SR4), E10 (SR5) and G20
- Composite lining on the walls, ceilings, and optionally the floor to maximise internal space
- Unobtrusive, covert security upgrades retain the standard appearance of the container to hide its strength from the naked eye and blend into any environment to avoid drawing unwanted attention
- Unique upgrades to existing container doors to maximise the available internal space and minimise the risk of compromised entry
- High-performance locking systems, ranging from the single key operated Navis-Shield to high-level multi-point access control systems, to suit both lock-and-leave and monitored high security, secure storage environments

DETAILS

PRODUCT REFERENCE:	BenweldSecure ISO-Secure
SECURITY RATING:	LPS 1175: Issue 8 Security Rating from A1 up to G20
EXTERNAL FINISH:	Prefinished to any RAL or BS4800 colour
ALARM/SECURITY:	Optional external hardpoints/brackets for PIR, vibration sensors, access control, deadlock and bolt position monitoring, door status, and door tamper
CONSTRUCTION DETAILS:	Panelled composite lining upgrades vary depending on security ratings
INSTALLATION:	Please contact BenweldSecure for installation options and costs
APPROVED ACCESSORIES:	BenweldSecure Barras Grille* BenweldSecure Billingham Grille* BenweldSecure Pegasus Louvre*
